PROFILE:

I am a full stack web developer with strong design sense and analytical skills. I create scalable web applications that solve problems and connect users with businesses. Passionate about delivering clean, scalable code and collaborating in team environments.

PROFESSIONAL EXPERIENCE:

➢ Over 3 years of experience as a Web Development Trainer at Dreamz Computer Institute, where I also worked on real front-end projects (dreamzedubdk.co.in).

➢ Trained students in HTML, CSS, JavaScript, React, Python, Photoshop, and MS Office.

➢ I am currently doing an internship in full stack web development (PHP stack) at Techzex Software Pvt. Ltd.

➢ I have some knowledge of the MERN stack, and my next goal is to build a career combining both the PHP stack and the MERN stack.

PROJECTS:

➢ My personal portfolio project, which I built using HTML, CSS, JavaScript, and React.js.
(https://chintudash.github.io/Portfolio/)

➢ Shoes-Shop front-end project built using HTML, CSS, JavaScript, Bootstrap, and React.js.
(https://chintudash.github.io/Shoes-Shop/)

➢ Happy New Year and April fool single-page front-end project built using HTML, CSS, JavaScript, Bootstrap, and React.js.
(https://chintudash.github.io/Happy-New-Year/)
(https://chintudash.github.io/april/)

➢ CD-Mart An e-commerce front-end project built using HTML, CSS, Bootstrap, JavaScript, jQuery, and React.js.
(https://chintudash.github.io/cd-mart/)

➢ Nykaa clone – a full-stack e-commerce project developed using PHP for the back-end and standard front-end technologies.

➢ World Best University Clone Project.

➢ Calculator, Calendar, TodoApp, Digital Clock, and Cricket Game – single-page projects built using JavaScript.
